Our Key Stage One curriculum covers English, Science, History, Geography, Music, Dance, Art, Drama, PSHE and DT through a thematic approach, with applied maths linked in when appropriate. This means our pupils are inspired, motivated and challenged by more meaningful and linked learning. It also allows us freedom and ownership with regard to how we teach as well as guaranteeing we fulfil statutory requirements in terms of coverage. Subjects taught discretely are RE, PE, Maths and more technical aspects of the English Programme of Study.
