

Lime Class

Autumn 1 – Out and About!

Welcome back to a new school year and the first term in Lime Class! I hope you had a lovely summer break.

We are excited about getting to know you all, new faces and old, and have lots of fun planned for this term. Our topic is geography based and involves exploring the school and our local area using maps and compasses. We are hoping to do some fieldwork at Jubilee Lake towards the end of term so look out for more information about this in the coming weeks. In science, we will be learning about the weather and carrying out experiments, collecting temperature and rainfall data. For further information please see the knowledge organiser.

PE will take place on a **Monday and Wednesday** this term so please ensure that your child comes to school in their kit on these days. We will also be starting forest school sessions on a Monday, with a small group of children going every week. Please look out for further information about this when it is your child's turn.

Below are a few general reminders:

- Please ensure that your child has a named water bottle in school.
- We will continue to offer fruit for a snack in the morning and milk if you have ordered it. If you are sending your child with their own snack, please ensure that it is a healthy one that **does not contain nuts**.
- Please make sure that all belongings are clearly named, particularly jumpers and cardigans.
- Homework will be given out on a Friday to be returned by the following Wednesday.

We look forward to seeing you all at the 'meet the teacher' sessions next week. If you have any questions or concerns, please feel free to email me at limeclass@longleaze.wilts.sch.uk or you can make an appointment with the office.

Kind regards,
Miss Bayfield

Dates for your diary:
